Polish partner Nutrimix is the new award winner because of the strong position they have reached in a short time, with many technical and marketing activities in the country. Nutrimix focuses on dairy and beef farms where they have gained confidence and trust, which is a basic condition for success, Michal Serwanski, Nutrimix' president says. The DV Europe business Manager handed over a statue of the European bison the Wisent, which symbolized the perseverance, determination and strength of Nutrimix, as a base for a strong development in the next coming years.

Diamond V Europe is growing very fast in Europe with their unique yeast culture products, where the focus is the proven positive effect on digestibility.
